I understand Jessica has taken the lead on this. Bill continues to respond directly to her requests. He tells me that this format has been worked over a few times and he also is providing tables, the map and other stuff to her.

I think for the latest stuff we need to ping her. I am happy to contribute whatever is needed but please coordinate w Jessica to get the latest.

Check: Sorry I had to make one quick revision. Here is the final and accurate number and location of EPA and contractor personnel on the ground for tomorrow 8/13:

**Region 9 Personnel and Locations:**

Region 9 currently has 12 response personal deployed in response to this effort: 9 at the ICP in Farmington, NM, 1 in Page, AZ, and 2 in the Area Command in Durango, CO. Response support to EPA personnel is being provided by four (4) USCG Pacific Strike Team members, and eleven (11) START and ERRS contractor personnel at the ICP in Farmington.

Jessica

Thanks for sending what bill sent you.

Do you want me and Clancy to take certain sections to streamline?

Perhaps Navajo section

Let me know.

Jessica:

Regarding the percent contribution of the 3 Million Gallons released from Gold King Mine, it accounts for only "0.00001 percent" of Lake Powell's total four trillion gallons capacity (half-full) at this time.
